

## Updated Guidelines Coming Soon!

We convened a panel of Florida experts to update the guidelines on *Monitoring Physical Health and Side-Effects of Psychotherapeutic Medications in Adults & Children: An Integrated Approach* to promote the whole-health concept of care, which includes mind and body.

Meeting presentations included:

- ✦ *Primary Care Topics in Psychiatry – Common Medical Comorbidities and Overutilization Prevention*
- ✦ *Psychotherapeutic Medication Use in Special Populations - Children*
- ✦ *Achieving Whole Health Goals – The Consumer Perspective*

To pre-order guidelines, please contact Sabrina Singh at [sabrinasingh@usf.edu](mailto:sabrinasingh@usf.edu)
